

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

TRANSFERS OF ENGAGEMENTS.

Transfers of engagements of horses can only be made by written notice from both the seller and the purchaser, to the Secretary of each Association where the engagements exist, before the death of the nominator. The following is a good form :

NASHVILLE, TENN., March 1, 1875.

To A—— B——, Sec. —— Association.

I have sold to C. D. the blk c, 2 years old, by Blitzen out of Messopotamia, with all his engagements.

E. F——.

I accept the above engagements.

G. H——.

ENTRIES.

Many turfmen, even the most experienced, are careless in regard to the form of their entries. The animal should not only be *clearly identified*, but the rules of all associations are such that in some cases when the

identification seems sufficient, the technicalities of the rules would render the entries invalid. For instance :

“ Wm. B. Johnson enters b c, by Boston, dam by imp. Priam,” would not be a valid entry, because there may be many colts to which this would equally apply; but the nominator should *add* enough of the pedigree to identify the animal, as, for instance, “ out of Maria West.”

Again, it will not do to enter a horse, even so well known as Kentucky, Harry Basset, or Longfellow, simply by *name*, because the *rules distinctly require* that, even when a horse has run any number of times under a name, the *name and age* must be given. If he has never run under his name, the identification should be made perfect, as in the first instance referred to.

In 1776 a sweepstakes, on exactly the same conditions as that which was afterwards named the St. Leger, was won at Doncaster by Lord Rockingham's br. f., by Sampson, and in 1777 by Mr. Sothern's Bourbon ; but the first St. Leger, so called at the time, was won by Hollondaise.

(a) After a dead heat with Hon. E. Petre's The Colonel.

(a) A horse falsely described as Running Rein, by The Sadler, out of Mab, by Duncan Grey, came in first, but was subsequently proved to be a four-year-old colt, called Maccabeus (afterwards Zanoni), by Gladiator, dam by Capsicum, and was disqualified.

(b) After a dead heat with Admiral Harcourt's Gildermire.

TRANSFERS OF ENGAGEMENTS.

Transfers of engagements of horses can only be made by written notice from both the seller and the purchaser, to the Secretary of each Association where the engagements exist, before the death of the nominator. The following is a good form:

NASHVILLE, TENN., March 1, 1875.

To A———B———, Sec. ——— Association.

I have sold to C. D. the blk c, 2 years old, by Blitzen out of Messopotamia, with all his engagements.
E. F———.

I accept the above engagements.

G. H———.

ENTRIES.

Many turfmen, even the most experienced, are careless in regard to the form of their entries. The animal should not only be *clearly identified*, but the rules of all associations are such that in some cases when the identification seems sufficient, the technicalities of the rules would render the entries invalid. For instance :

“Wm. R. Johnson enters b c, by Boston, dam by imp. Priam,” would not be a valid entry, because there may be many colts to which this would equally apply; but the nominator should *add* enough of the pedigree to identify the animal, as, for instance, “out of Maria West.”

Again, it will not do to enter a horse, even so well known as Kentucky, Harry Bassett, or Longfellow, simply by *name*, because the *rules distinctly require* that, even when a horse has run any number of times under a name, the *name and age* must be given. If he has never run under his name, the identification should be made perfect, as in the first instance referred to.
